The legend of Dave's Original Blend.

Dave was fed up with cheap, fast burning smokes. Instead of just getting mad, he did something about it. He read some books, cleared twenty acres and got to work. He put a down payment on a tractor and traded his lawnmower for a weather radio. And then it was just a matter of waiting for the final frost of the season and a new moon. In early April, Dave sowed his first seeds. A few sunny days later, Dave's Tobacco Company was born.

Word spread about Dave's hand-cut, barn cured tobacco. People began asking for free samples of his new smokes. He couldn't afford to give any away, but he had an idea, Barter! After all, he needed a logo, a delivery truck and a few places to put his advertising.

People started buying these new, cheap smokes that didn't burn fast and tasted great. They told their friends...who told their friends. Now Dave works for nobody but himself. And it all started with a few tobacco seeds...and a dream.
